40" – 20 pallets x 120 cartons + 1 pallet x 96 cartons

Our Unique Strengths

Expert-Guided SOPs: Post-harvest handling is guided by a renowned Chilean expert, ensuring globally benchmarked quality at every stage.

Pre-Fumigation for Peak Freshness: A carefully controlled pre-fumigation process reduces fungal risk and dehydration, delivering grapes with vibrant green stems and a fresh, appealing look.

Precision From Pruning to Harvest: We follow the grape's natural growth cycle with expert timing — from precise pruning to optimal harvesting — for consistent quality.

Premium Grade Grapes: White seedless grapes with 17+ Brix sweetness and 18+ mm size, delivering outstanding flavor and visual appeal.

Our Key Advantages

Flexible Supply: Via our EU sales office in Riga and Rotterdam warehouse, we fulfill orders from single pallets to full truckloads, offering both programmed deliveries and spot-sales.

Strict Quality Control: Every delivery undergoes rigorous quality checks, ensuring it meets all agreed specifications from warehouse to client.

MRL Compliance Guaranteed: Our grapes strictly comply with EU MRL standards and those of specific retail chains and markets.

Consistent Excellence: We consistently deliver grapes that are bright, dry, cold, and naturally sweet, meeting high customer expectations every time.
